## LORRAINE'S PILLS. OR VEGETABLE UNIVERSAL MEDICINE. CURATIVE OF THE

French College of Health, in Paris.

The following letter was received yesterday by mail from Salem. It gives another evidence of the great success of Lorraine's Vegetable Universal Pills.

SIR—I have been for many years a sufferer from the ravages of Scrofula and Cancerous Humors, which at last seated on the vitals, and exhibited all the threatening symptoms of consumption. The general inability of all remedies awakened my enquiries as to the thousand different methods of cure, to most of which I had recourse without receiving benefit. I accidentally noticed a remarkable cure by Lorraine's Pills, and was induced to give them a trial. I sent to Boston and got a box. By the use of them I found immediate relief and was soon restored to a perfect state of health.

J. E. NEWHALL.

Salem, 21st May, 1841.

The following letter from J. B. Light, Esq. is worthy of notice.

SIR—I took one of Lorraine's Vegetable Pills last evening for a pain in my head, that had effected me for several days, occasioned by taking cold. I soon felt very calm, and quiet, and a state of general repose came on, which had great charms, and I enjoyed one of the most comfortable and refreshing nights rest that I ever did in my life. I rose in the morning in my usual state of health, and believe it is my duty to recommend this medicine.

J. B. LIGHT.

Nov. 20th, 1841.

[From Boston Daily Mail.]

Somebody wisely says, that a cap loaded with jewels and flowers will not cure the headache, nor gold chains prevent the consumption. Lorraine's Vegetable Pills have done both.

SIR—I have been effectually cured of a severe headache by the use of Lorraine's Pills.

SARAH NOYES.

SIR—My daughter had all the threatening symptoms of a Consumption, such as cough, pain in the side, &c., together with general debility, but has had her health restored by Lorraine's Pills.

Rev. J. KNIGHT.

New York City, Nov. 1, 1841.

Family Medicine.

SIR—I have used Lorraine's Pills in my family as a family medicine, and I would most earnestly recommend them to all persons, as the best medicine that can be procured. I would not be without them—they operate mildly, and never fail to give immediate relief. Until I used these Pills I was obliged to pay from two to \$100 per year for medicines and physicians; since then I have had no other doctor than Dr. Lorraine's Pills.

JAMES NEAL.

Hartford, Conn. July 8.

Lame Back.

Sarah Snow was cured of a lame back in one day, when she had been unable to dress herself alone for two weeks.

Susan Jones of Boston, cured in 36 hours of lame back and side of three weeks standing.

Sick Headache.

Mrs. Bird of Providence says, that 'Lorraine's Pills have proved a real blessing to her. It has surpassed any thing that has been brought to the public notice. I have been cured of a sick headache that had afflicted me for years, by the use of Lorraine's Pills.

THE CONDITION.

The condition upon which nature gives health to man, is a watchful care to keep his stomach and bowels free from morbid and unhealthy accumulations. Lorraine's Pills admirably effect this, because they cleanse the bowels and purify the blood. The human body is always healthy when the bowels are regular, the blood circulates freely, and disease invariably commences when obstructions take place in the bowels.

The extraordinary virtues of Lorraine's Pills depends upon extracts of over 50 different vegetables, all so admirably combined as to purify, nourish and invigorate the human system.

## CONSUMPTION AND LIVER COMPLAINTS

TAYLOR'S BALM OF LIVERWORT.  
This far famed remedy is growing more and more popular; every day some grateful person that has been cured by this medicine, calls at the office 375 Bowery, and expresses their gratitude, giving us the privilege to refer all those who do not already know its curative powers, to them.

Invalids suffering with pain in the chest and side, shortness of breath, raising of blood, and all diseases of

CHEST, LUNGS AND LIVER

will find this a sovereign balm. So numerous are the certificates received and so many already have been published that we thought it unnecessary to publish them now. Call at the office and see for yourself. Counterfeits are used in every direction. Never buy of any one unless you have confidence and know that it comes from the original and only manufactory of the genuine, 375 Bowery.

TAKE NOTICE that Counterfeiters have imitated the wrapper, labels, and outward looks of the medicine, so that there is no dependence to be placed on it excepting those who are acquainted with the signature. If you wish the genuine, buy ONLY in this city at the office 375 Bowery, between 4th and 5th streets, and in Bangor only of G. W. LADD, Druggist, near 91 3d St. W.

RE-CLOSURE OF MORTGAGE.

JAMES L. BROWN, by his deed of October 13th, 1834, recorded in Book 60, page 98 of Penobscot Registry, conveyed to one Charles H. Pierpont one undivided eighth part of seven eighth parts of Township No. 3, Range 3 in the County of Penobscot, west of the Penobscot river and north of the Walden River. Also an undivided twelfth part of Township No. 4, Range 3, lying east on said river, which said mortgage had been assigned to me by said Pierpont by his deed, dated April 1, 1843, and the conditions thereof have been complied with, and the said mortgage is hereby declared null and void.

NOTICE TO RE-CLOSE MORTGAGES.

I, SAMUEL LOWDER, the subscriber of Bangor, hereby give public notice of my claim by mortgages, made by the several persons hereinafter named, to me on certain parcels of real estate, situated in the towns of Orono and Hermon, in the County of Penobscot and State of Maine, which mortgages bear date and are recorded with Penobscot Records as severally stated below, and to which record and to R. Gilmore's plan of Hermon, and to J. Gilman's plan of Lowder & Parks' purchase in Orono, all persons interested are referred for a more full description of the premises, to wit:

Hugh Curran's mortgage of lot numbered 20 and part of lot No. 48 in Orono, dated March 14, 1839, recorded Book 107, page 248.

Henry Warren's mortgage of lot numbered 97 in Orono, dated October 19, 1839, recorded Volume 111, page 437.

James Taylor, Jr.'s, mortgage of lot numbered 253 in Hermon, dated March 4, 1840, recorded Vol. 113, page 559.

Thomas Goodspeed's mortgage of lot numbered 204 on the Billings road, dated Nov. 10, 1838, recorded Vol. 103, page 560.

The conditions of which said several mortgages having been broken, I, by reason thereof claim to foreclose the same.

KOLMSTOCK'S VERMIFUGE.

THIS remedy for worms is one of the most extraordinary ever used. It effectually eradicates worms of all sorts, from children and adults. THOUSANDS perish by worms without the real cause being known. Some other reason is assigned for their sickness, until too late to cure the real cause.

What immense responsibility then rests upon the parent who does not know, and the doctor who does not understand, the complaint which is destroying those precious flowers of life—children.

What should be done?

The answer is plain. Give this vermifuge, which will be sure to do good, if they have no worms; and if they have, it will destroy and eradicate them with a certainty and precision truly astonishing.

It cannot harm the smallest infant or the strongest adult. There is no mercury or mineral in it. Mercury is the basis of most worm remedies; and the remedy is sometimes worse than the disease. So never use lozenges, but rely upon this. Every person will be convinced on one trial, that it is the most perfect cure ever invented.

The immense sale that this vermifuge has, is a sure test of its value and the estimation in which it is held by families. It would be quite too expensive to publish the volumes of certificates that have been given for this article, and the users of it are requested to spread the name to all persons whom they think may be benefited by it.

Speak of it in all families, and you will do your duty to your fellow creatures, and feel assured of the approbation of all good men, and will receive your reward in heaven.

We call on all good citizens to make known the effects of this wonderful remedy.

Remember and ask for Kolmstock's Vermifuge, though Fahnstock's is supposed to be the same article: the one that has become known to you through the advertisement should be used, in justice to the proprietors.

which could not be amended without the consent of England. With a perfect consciousness that they could in future correct any error thus made, yet we see that, in almost every instance, it was found impossible to allay the jealousies and fears or appease the animosities and rivalries of the multitudes of interests conflicting with each other in the different sections of our great and growing country. And in consequence of this in every instance, they passed the Tariff law, the most important of all laws to the nation, by the smallest possible majority. During the session of 1842, Mr. Webster was present at Washington, with an opportunity of infusing all his opinions into the public councils on this subject, quite as ample as he or any other man can expect to be indulged in, who shall undertake the mighty labor to reconcile Congress to another Tariff under the name of Commercial Treaty. He knows well that, while the Senate of the United States could be induced to pass a Tariff, after many months labor, by a majority of only one vote, he or any other who shall undertake practically to carry out this new project, now has to obtain the assent of two thirds of that Senate to any modification of that Tariff which shall be established by a treaty. Does any advocate of this experiment expect to obtain the requisite constitutional majority of two thirds to any Tariff in the shape of a treaty which the wit of man could possibly suggest? Any one who has had experience in the public councils, will pronounce the scheme of a Tariff Treaty, to which two thirds of the assembled Senators of the United States must assent before it is ratified and confirmed, to be utterly and absolutely impracticable, not to say impossible. But let us suppose that the requisite majority of two thirds could be obtained. The question then arises what is the effect of the treaty when made? The constitution of the United States confers upon the Congress of the United States (not upon the President and the Senate) the power to lay import duties. It gives to the President and Senate the power to make treaties. Is it pretended by any one that the treaty-making power can supersede or annihilate the express grant of the legislative power conferred by the same instrument, to make and repeal Tariff laws, to modify, to amend, and alter them at pleasure? On such a subject, it can hardly be necessary to turn the intelligent reader to an authority on Constitutional Law. Mr. Story, in his Commentaries on the Constitution, [vol. 3, chap. 37, 1062] speaking in reference to this subject, says:

"The power 'to make treaties,' is, by the Constitution, general; and of course it embraces all sorts of treaties; for peace or war; for commerce or territory; for alliance or succors; for indemnity for injuries or payment of debts; for the recognition and enforcement of principles of public law; and for any other purpose which the policy or interests of independent sovereigns may dictate in their intercourse with each other. But though the power is thus general and unrestricted, it is not to be so construed as to destroy the fundamental laws of the State. A power given by the Constitution cannot be construed to authorize a destruction of other powers given in the same instrument. It must be construed, therefore, in subordination to it, and cannot supersede or interfere with any other of its fundamental provisions. Each is equally obligatory, and of paramount authority within its scope; and no one embraces a right to annihilate any other. A treaty to change the form of government, or annihilate its sovereignty, to overturn its republican form, or to deprive us of its constitutional powers, would be void; because it would destroy what it was designed merely to fulfil, the will of the people."

## DAILY WHIG AND COURIER.

JOHN S. SAYWARD, Editor.

WEDNESDAY, JULY 12, 1843.

FOR PRESIDENT,  
**HENRY CLAY,**  
OF KENTUCKY.

SEE FIRST PAGE.

**Labor.**  
"All is the gift of Industry; whatever  
Exalts, embellishes, and renders life  
Delightful."

Labor is the great lever that has raised man from the weak condition of a savage. Labor is the hand-maid and forerunner of intelligence. It changes the forest into cultivated and fruitful fields. It covers the earth with cities and the ocean with ships. It gives abundance, comfort, and elegance, instead of want, misery and barbarism! All we behold around us that gives grace and convenience to life, is the result of that Heaven bestowed necessity imposed on man—labor. Why, then, should any intelligent being, any creature of God, knowing that labor is thus important, and designed by the source of Wisdom as the instrument of improvement, of health and happiness to man, why should he wish to escape from it, and esteem it a degrading drudgery.

The highest science next to that which teaches of the cultivation of the soul, is that connected with labor, and in nothing more can all the powers of mind and body be so well exercised and strengthened. Drudgery? The truest dignity and the mightiest powers a man possesses can alone be developed by labor, and men wrong themselves when they look upon it in the light of a hard service or a degrading object of pursuit.

### Repeal Meeting.

The Repeal Association of this city held a public meeting at the City Hall on Monday evening last, but the weather was so unfavorable that the meeting was rather thinly attended. The object of the meeting, as we learn, was to get the true merits of the repeal question before our people, believing as the members of the association do that the subject needs but to be properly understood in order to receive the sympathy and aid of every lover man.

To this end the remarks were generally directed, and several important extracts were read to the meeting.

The meeting was adjourned to next Monday evening for the same object and it is hoped that the weather and other circumstances will prove favorable and that a large number of our citizens will attend.

Our fellow citizen Col. Samuel L. Valentine, has made arrangements for the general introduction of his new patent mill wheels through the State. See advertisement.

A gang of looters of the baser sort, a few nights since, passed along State street injuring fences, bending down young thrifty trees by the road side, and committing other acts of depredation. It seems to us as one of the strangest and meanest acts of which a man can be guilty, that of injuring or destroying beautiful trees or shrubbery around a person's dwelling or by the road side in a village. Their rich green foliage relieves the eye of beholders, and their cooling shade refresh the weary. They are, it seems to us the farthest of all things on earth from being offensive to any of the senses of man. They are of slow growth and of course cannot be easily replaced, why then can any being, capable of appreciating beauty, or enjoying comfort or feeling satisfaction in the enjoyment of others, engage in the destruction of such beautiful ornaments as living trees when placed for the benefit of all, beside a heated and dusty street?

We notice of late that many of the school boys climb up the young trees. We trust every teacher will endeavor to teach them better than to do thus, and if need be, have a climbing pole erected upon the school play ground, on which the boys may exercise their skill. Let parents and teachers, and all who have influence with the young, aid in the cultivation of a better taste than to delight in the destruction of beautiful trees.

### Eastern Enquirer.

This is the title of a new weekly political paper, established in this city by Wm. Bartlett & Co. and is devoted to the interest of Mr. Calhoun for the Presidency. The Enquirer is disposed to take an independent stand and to rap too hasty leaders on the knuckles, whenever they thrust their hands too far into the political dish of the mass of the party. The editor possesses skill, and we should judge that while his paper is not likely to be the favorite of the leaders or the cherished organ of the party, it may be well sustained as a lash to be applied to each in turn as they may appear to deserve it—the leaders hating it when they are hit, and yet taking delight in seeing it make others tingle. The paper is a witty and a handsome one, and we learn is likely to receive a good support. We wish well to all concerned in its publication although we are far enough from admiring their politics.

We hardly know why we have not greeted the Enquirer before this, but if we are late it is not the less sincere.

There are many persons, so it seems, in peeping out into the world from our sanctum, who bestow much thought, and labor to adorn the outer man. We do not object to this entirely, it is well to bestow some attention to personal cleanliness, neatness and appearance. But is there not, with too many, a great disproportion between the care bestowed upon obtaining clothing to adorn the body, and virtues to adorn the soul. Is there not a greater desire to appear well than to be well. Are there not more efforts to embellish the exterior than the interior. The times and mens' responsibilities and the wants of the community require that the internals of the mind be cultivated until man shall rise superior to any debasing or dishonest thought—until all shall be receptacles of truth and pure mediums of good. Then shall the light and purity of heaven be felt among men, and peace shall reign, and God be loved and honored.

The Whig convention of Mississippi has disavowed in the strongest terms any participation in the doctrine of repudiation that has been cradle in that state under locofoco rule. The Convention has declared that when a state or Nation, in the exercise of an acknowledged right, has contracted debts and incurred liabilities upon the pledge of the faith of the State, it is the paramount duty of such state or Nation to preserve its faith inviolate and its honor unstained; that the doctrine of the repudiation of State debts, once contracted, is dishonest and unjust, at war with our social, moral, and political prosperity; and opposed to those high principles which should, at all times and under all circumstances, however onerous, actuate a free people.

The Democrat states in reference to the article in our paper a few days since signed 'Levant' proposing certain questions to the 'democracy,' and to our remarks, that the editor does not believe the article was written by a 'democrat.' We cannot believe that our neighbor intended to give the impression that we had stated even indirectly an untruth in regard to the origin of that article. As we stated, the article was handed us by a well known member of the 'democratic' party, and under such circumstances as to cause us to believe that it was written by him and intended, as it purported for his political brethren. We believe the editor of the Democrat will do us the justice to believe us sincere in the matter.

Mr. David Bugbee has received at his periodical depot the ninth number of Harpers' edition of Brande's Encyclopedia of science, literature and art. To those not acquainted with the merits of this work we would recommend it as one of great merit—the essence of much valuable learning in a very convenient form, and afforded at a cheap rate.

The famous lecturer, better known as silk Buckingham, has lost, it is said about \$15,000 in this country by broken banks. This is about the amount he made here by his lectures and the New York Courier thinks the account is now about square.

A friend of ours with a feeble child took it to board a few days at a house situated in one of the beautiful villages on our bay in order to give the child the benefit of salt water baths. The keeper of the house thought it would save trouble to take cold well water and put some salt in it!

There happened, as will sometimes happen in the best regulated families, a little wrong transposition of matter in correcting the proof of the volunteer toasts given at the table in this city on the Fourth of July. The difficulty has been pointed out to us and we republish the sentiments affected by the transposition as they appeared in the original manuscript:

By Col. Wm. H. Mills—The two glorious epochs which you celebrate—The one severing her connexion with the tyrant of England—the other with the tyrant of the world.

By Dr. Deane, Vice President.—The Present Age—The dawn of that day in which the bonds of common brotherhood shall be felt and acknowledged, and man again be an image and likeness of his maker.

We are told that very few applications are made for permits to operate in the lumbering business next winter. A great falling off in the business is consequently expected.

The influenza is prevailing quite extensively among the lumbermen upon the Penobscot.

### Emigration from Europe.

A Havre paper of 15th of June states, that "for some time the emigration from the north of Europe for the United States of America from our port, greatly increases. The last week, in the short space of three days, two thousand emigrants quitted Havre, taking with their families a capital of working tools. One peculiarity, until now unexampled, distinguishes this new flood of pioneers, they are no longer only peasants of Alsace, Switzerland and the poor States, situated at the north of France, who expatriate themselves to run after prosperity, our quays are covered with a different emigrating population, whose picturesque costumes, and strange physiognomy excite the curiosity of passengers, and causes them to stop in their course. These are the inhabitants of the depths of Norway who have come by the economical method of navigation, & who after having passed over from north to south eleven degrees of latitude, have come to Havre, to embark, and sail for more favored climates. Several companies, numbering more than six hundred men, women and children, have already passed by our city, and almost all the Norwegian vessels, this season, bring us some of these emigrants."

### Further Particulars of the Loss of the Steam Ship Columbia.

The news of the loss of the Columbia was conveyed to Boston from Portland by an express train that ran the distance in three hours running time, although it was detained sometime at Portsmouth.

The following letter from Hon. Abbott Lawrence to his son in Boston was published on Monday morning in the Boston Atlas. It will be read with interest.

SEASIDE, July 3, 1843.

My Dear Son—

We left Boston at quarter past 2 o'clock on the 1st inst. and experienced a most agreeable run till yesterday at quarter past 1, (it being foggy,) the Columbia struck on the Black Ledge, one and a quarter miles distant from this island, at high water. When the tide began to ebb, we saw large rocks on the larboard side, about 10 fathoms distance, and a long reef not a cable's length from us. Before half tide down, these rocks were 4 feet above the water. Soon after she struck, we commenced throwing over coal, which was continued through the day. At half past 2 we began firing our cannon; in half an hour after we were answered by a musket, which relieved us from the most painful anxiety, as we were not quite certain where we were, and hoped it might be from the land.

At 4 o'clock the fog lifted, and we had the inexpressible satisfaction of seeing a fishing schooner making for the ship, with a small boat in tow. The Captain of the schooner, (Hitchings,) who is the keeper of the lighthouse, came on board and gave us an account of our situation, which appeared anything but flattering. We soon concluded, as it was evident the Columbia was in a rocky berth, that it was prudent to take the ladies on shore (14 in number,) besides several in the steerage, and five or six children. This was accomplished at 6 o'clock, without injury to any one; and here we found two small houses, a mile or more distant from each other, inhabited by kind and efficient people, who exhibited all the sympathy and care we could desire.

There are no other habitations upon the island, which is rough and barren. The nearest main land is Barrington, 25 miles distant. This morning at high tide, an attempt was made to float the ship, which proved unsuccessful, at half past 2 the Captain requested the passengers (50 in number) who remained on board, to go on shore—about 40 having landed last evening. The passengers are now all on shore—and one half the baggage. The mails are all here, and the remaining part of the baggage will be received in the course of an hour.

The opinion now is that the ship will be lost—she is very much strained and has heeled over considerably. We have 95 passengers, and 73 officers, crew, &c., belonging to the ship in all 168 souls. The Captain has conducted himself with great coolness and courage, and displayed that energy and magnanimity that belong to his notable profession. And now having no more time to write, I have only to say that I deem our preservation extraordinary—20 yards on either side of the ship, with a moderate breeze would have consigned us all to a watery grave.

Through the mercy of Almighty God we have all been spared, living monuments of his protecting care; and we and you, and all our friends, should offer up to our Heavenly Father the homage of grateful hearts, for this signal instance of his sparing mercy. The ladies and all the passengers have conducted themselves in a manner that should command our admiration. We shall send an express to Halifax for a steamer, which, I suppose, is nearly 200 miles—we being now about 240 miles from Boston. We have provisions enough for the present, and can make ourselves tolerably comfortable, under circumstances in which we are placed.

Your mother and sister are quite well, and I am better than could be expected, after the anxiety and fatigue that I have passed. I shall

write the first opportunity. Do not however, be anxious. The season is favorable, and I have no doubt we shall all be provided for. In great haste I remain  
with the truest affection,  
ABBOTT LAWRENCE.

JAMES LAWRENCE.

A letter from Lieut. Parsons to the Post Master at Boston states that the Columbia lay on an inclined plane of smooth rock, from her paddles forward, while her stern was in deep water, that she strained heavily, and that on the night's tide, having lightened the ship by discharging coal, anchors, chains, &c. &c., tried the only engine that would work, and hove on her anchor.

But although she rolled uneasily on her bed, she did not start an inch at 5, A. M. He expresses the opinion that this most excellent steamer will only be taken by pieces from her present dangerous position.

The steamship Margaret, says the Boston Mail, was sent over to Halifax about one year ago, with orders to be kept in complete repair for a voyage at 24 hours notice, on purpose to meet any exigency that might happen; and she is undoubtedly now on her way to England with the passengers and mail of the Columbia.

### Severe Hail Storm.

The Portland Advertiser states that a severe hail storm visited that city on Saturday afternoon. The hail came in a vein of about a mile and a half wide and the stones averaged in size common musket bullets. The destruction to window glass was very great—twenty thousand panes were broken in Portland. The crops were also much injured.

The commanding officer of a Portuguese vessel of war on the African station has been brought to Lisbon to be tried for flogging a seaman to death, having given him no less than 2,300 lashes!

"His own Household."—The Secretary of War has appointed three nephews to clerkships in his department! The four Porter's draw \$10,200 a year from Government! We suppose this will be set to the debit of Whig extravagance.

The drought is said to be severe in Rhode Island.

**MARTHA WASHINGTON SOCIETY.**  
A regular meeting of the Martha Washington Society will be held at the Washingtonian Hall, THIS (Wednesday) AFTERNOON, at 2 o'clock. A general attendance of all the members is earnestly requested. By order of the President.  
Mrs. F. T. WHEELER, Secretary.

### EPISCOPAL CONVENTION.

The annual Convention of the Protestant Episcopal Church in the State of Maine, will commence its session, THIS DAY, in St. John's Church in this city. Morning service will be celebrated commencing at half past 10 o'clock. The sermon will be preached by the Rev. Mr. Freeman, of Augusta, after which the holy Communion will be administered.

**VALENTINE'S PATENT WATER WHEELS.**  
FRANKLIN MUZZY & CO have been appointed Agents for the manufacture and sale of Valentine's Patent Cast Iron Reaction and Tub Water Wheels, and would give notice that they are prepared to furnish them to order, and also any other Castings and Machinery that may be wanted therewith, at their STEAM IRON WORKS in Bangor.  
July 12, 1843.

**PATENT MILL WHEELS.**  
THE Subscriber having for a long time given his attention to the construction and operation of Water Wheels, has finally succeeded in the invention of two kinds of Wheels for which he has received Letters Patent from the Government of the United States.  
These Wheels are simple in their construction, cheap and durable, are easily put in operation, and are not liable like most other wheels to get out of order; they are not obstructed by back water, when the head is not diminished thereby; and the same power and speed is obtained, with about one half the quantity of water usually applied to wheels now in general use.

A great number of these Wheels are now in operation and give in all cases entire satisfaction; and for further information respecting them the following gentlemen are referred to, all of whom have some of said wheels in operation: Jacob Drummond, James B. Fiske, Amos Davis and Leonard March, Esqrs. Messrs. Fiske & Norcross, Foster & Gilman, S. P. & H. Strickland, W. T. & H. Peirce & Co. Bangor; Hon J. S. Little, Portland; Hon. John Otis, Hallowell; F. A. Butman, Esquire, Dixmont; Robert Treat, Geo. A. Peirce, Esquires, Frankfort; Daniel Dennett, Esq. Milo; Col. Henry Orne, Milton; Messrs. Fiske & Bridge, Milford; Ira Wadleigh, Esq. Oldtown; Capt. R. Fittz, Dedham; John Black and John M. Hale, Esqrs. Ellsworth; Messrs. A. Campbell & Co. Cherryfield; Daniel Harwood, Esq. Machias; Levi L. Lowell, Calais.  
The above wheels are manufactured and for sale at the Iron Foundries of Messrs. HINCKLEY & EGERY and FRANKLIN MUZZY & Co. in this city, who are furnished with a great variety of patterns, so that Wheels of any particular description, or adapted to any given head of water, can be furnished at short notice. They are also authorized to dispose of the Patent Right for the same.
